

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant(s): Williams, Dwight P.

Application No.: US National Stage of PCT/US
126,762

Filed: 2/14/2005

Title: Dry Chemical System for Extinguishing
Difficult Fuel or Flammable Liquid Fires in an
Industrial Tank with a Roof Creating Space
Above the Liquid

Attorney Docket No.: 50262

Art Unit:

Examiner:

PRELIMINARY AMENDMENT UNDER 37 CFR 1.115

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Please amend this application as follows:

In the claims:

Please amend the claims as per attached claim amendment sheet.

In the specification:

Please amend the specification as per the attached specification amendment sheet.

The specification is amended to correct a typo noted in re-reading the specification.

In the drawings:

Please amend the drawings as per the drawing amendment sheet.

The drawings are amended to correct an inaccurate reference line of the formal drawings, just noted upon review. A copy of the informal drawing submitted in the application is attached to substantiate that the formal drawing of Figure 7 had an inaccurate reference line drawn for "LFT."

REMARKS

The two references cited in the instant IDS were references regarded of "relevance" (such that the claimed invention could not be to considered to involve an inventive step when the document was combined with one or more other documents) in the Search Report and Written Opinion of a related continuation-in-part PCT application, PCT/US03/28946.
